COMPACT SIZE, ALL-NEW LOOK, AND A POWERFUL PUNCH.

For small and medium businesses and workgroups that demand color along with a small footprint, Toshiba has answered the call. The e-STUDIO2510AC Series is packed with industry-leading technologies and innovations designed to help workgroups connect, integrate and simplify.

Print Around eliminates printing bottlenecks by allowing other print jobs to go around a job that's held-up for a specific paper size, media type or even color toner.

Job Reservation will queue up multiple copy or print jobs so users can send jobs whenever.

Saddle/Fold Capabilities offer saddle-stitch finishing and the option to fold without stapling.

Auto Skew Correction ensures your scanned documents using the document feeder are reproduced accurately.

Heavy-Media Duplex Support can also handle 16 lb bond to 90 lb index for heavy duty duplexing.

Print-from USB lets you print PDF and JPG files straight from your USB drive and the MFP will scale document to fit the available paper size if necessary.

e-BRIDGE Plus for USB Storage is great for capturing a file quickly when you're on the go.

Notifications Feature takes the hassle out of checking for depleted supplies or maintenance needs.

Paper Volume Indicators on the front panel make it easy to see the paper sizes, types and levels in each cassette.

Scan Preview allows you to review your scanned documents digitally, even rotate and change pages prior to sending to file or email.

Fax Preview saves valuable resources by letting you view received faxes prior to printing them.

Service Module Design significantly reduces the cost and time spent servicing the MFP.

CONVENIENCE AND SECURITY.

Small workgroups looking for quality color will appreciate that the e-STUDIO2510AC Series is easily integrated, customizable, and solutions ready, with Toshiba's Open Platform.

AirPrint® and Mopria® support address the printing needs of mobile device users, while Wi-Fi direct simplifies access to the MFP. Toshiba's V4 Driver with Toshiba Print Experience serves PCL users, a universal print driver and XPS support addresses Windows® environments while PS3 support provides connectivity for Macintosh® users and beyond.

A variety of time-saving, function-adding plug-ins that enable productivity right in the driver. For instance:
